Annual  
Report  
2012

# Message from the Chairman

**Dr TSO Wei-kwok, Homer, SBS, JP**  
**Chairman, Dental Council of Hong Kong**

The year 2012 has been extremely rewarding for the Dental Council in particular with the conduct of the first accreditation visit on the undergraduate dental education programme of the Faculty of Dentistry at the University of Hong Kong ("Faculty").

As part of our incessant efforts to enhance service level of the dental profession, the Council has been attaching great importance to the accreditation exercise. I am glad to report that this year the Council has reaped the fruit from the past years' efforts in the pre-accreditation work and made great strides in conducting the first accreditation visit. A Visit Team comprising two international experts and four local experienced dental practitioners from both the public and private sectors was formed and paid a visit to the Faculty from 19 to 22 November 2012. Thanks to their effort and the full co-operation of the Faculty, the three and a half day visit has run smoothly with a number of forums, interviews and site inspections successfully conducted. The Visit Team gathered useful and important information during the visit and come up with insightful recommendations. They have prepared a Visit Team's report afterward of which the EAC and the Council will consider before a formal report for the accreditation exercise is worked out.

Basic dental training aside, continuing dental education is also essential in keeping the dental practitioners abreast of the most up-to-date dental knowledge and service innovations. The current cycle on voluntary "continuing professional development" ("CPD") programme for dentists will end on 31 December 2013. The CPD Accreditation Committee formed under the Council will continue to monitor the accreditation of CPD activities and conduct review of the CPD programme as necessary.

The number of candidates sitting Parts I, II and III of the 2012 Licensing Examination was 46, 28 and 10 respectively. Most of the candidates completed their basic dental training in Mainland China, Philippines and the United Kingdom. Additional Examiners appointed by the Council in 2010 completed their three-year term of office this year. The Council would consider their re-appointment and would take this opportune time to review the role of Additional Examiner in the examination.

Regulation of conduct and discipline of registered dentists is another main function of the Council. In 2012 the Council received a total of 139 complaints. While a majority of these cases have been screened out and dismissed by the Preliminary Investigation Committee and not to proceed to formal disciplinary proceedings, we took this as a clear indication of the trust which the public have placed on the investigation/disciplinary authorities of the Council. With the growing expectation from the public on the level of service and sense of professional ethics upheld by the profession, the Council will stay adamant to work for maintaining a high ethical standard of the dental profession for the benefit of the community at large.

I am privileged of having the support and assistance of all the Council Members and staff of the Council Secretariat in furthering the work of the Council. The Council will continue to do our best to protect the interests of the members of the public and maintain the quality service of the profession.

## ***Preliminary Investigation Committee and Disciplinary Proceedings***

- 4.1 The Dental Council's jurisdiction over dentists' professional conduct is laid down in the Dentists Registration Ordinance and the Dentists (Registration and Disciplinary Procedure) Regulations.
- 4.2 Disciplinary proceedings may be instituted against a registered dentist who –
- (a) has been convicted in Hong Kong or elsewhere of an offence punishable with imprisonment; or
  - (b) has been guilty of unprofessional conduct; or
  - (c) has obtained registration by fraud or misrepresentation; or
  - (d) has procured his name to be included in the Specialist Register by fraud or misrepresentation; or
  - (e) was not at the time of his registration entitled to be registered; or
  - (f) is practising dentistry in premises or under conditions which are unsuitable for such practice.
- 4.3 If any applicant for registration –
- (a) has been convicted in Hong Kong or elsewhere of an offence punishable with imprisonment; or
  - (b) has been guilty of unprofessional conduct; or
  - (c) is the subject of an existing order made under section 17(1)(i) or (ii) of the repealed Dentists Registration Ordinance 1940,
- an inquiry may be instituted to determine whether or not the name of the applicant should be admitted by the Council for entry to the General Register.
- 4.4 The Council has published a Code of Professional Discipline for information to each registered dentist to provide general guidance to him on the proper behaviour to be observed in the profession and what may commonly constitute unprofessional conduct. The Code is not a complete guidebook on professional ethics, nor can it specify all offences which may lead to disciplinary action. Ultimately it is for the Council to decide on the merits of each individual case as to whether the conduct of an individual dental practitioner under complaint or information received constitutes unprofessional conduct.
- 4.5 Complaints or information received against registered dentists touching on matters of unprofessional conduct are normally either lodged with the Council by individuals or referred to the Council by the press, the police or such other organizations as the Consumer Council. In accordance with the statutory procedure, individual complaints may normally be handled under the following procedures –
- (a) initial consideration by the Chairman of the Council's Preliminary Investigation Committee (PIC) who must, unless it appears to him that the complaint is frivolous or groundless and should not proceed further, direct that the case be referred to the PIC for consideration;

- (b) examination by the PIC of the complaint or information received as well as the explanation of the defendant dentist to determine whether or not there is a prima facie case for a formal inquiry; and
- (c) inquiry by the Council, which sits in a panel of at least 4 Council Members, to hear the evidence of the complaint and representations from the defendant dentist.

4.6 The PIC is made up of 3 members. Its composition is as follows –

- (a) 1 member of the Dental Council elected by the Council, who shall be the Chairman of the Committee;
- (b) 2 registered dentists who are not members of the Council and who shall be appointed by the Chairman of the Council –
  - (i) from a panel of not less than 12 such registered dentists nominated by HKDA; or
  - (ii) in the event of HKDA failing to nominate at least 12 such registered dentists, at the discretion of the Chairman.

4.7 The membership of the PIC in 2012 is as follows –

Dr Chiu Tin-yan

- *(as Chairman up to 12.10.2012)*

Dr Au Yeung Kim-hung, Nelson

- *(as Chairman since 13.10.2012)*

Dr Tsang Wai-kit

- *(up to 31.5.2012)*

Dr Liu Wai-ming, Haston

- *(since 1.6.2012)*

Dr Lau Chi-kai, George

4.8 In 2012, the Council had processed a total of 139 disciplinary cases, representing an increase of 18% when compared with the 2011's figure. **Table 1** shows the different nature of the complaints received. Comparative figures for the years 2010 and 2011 are also shown in the table. 82% of the complaints received were related to the disregard of professional responsibilities to patients.

4.9 The number of complaints processed in 2012 under the 3-stage process mentioned in paragraph 4.5 above is given in **Table 2**. 117 were dismissed by the Chairman of the PIC. The PIC had held 4 meetings in 2012 and considered 11 cases, out of which 4 cases (i.e. 36%) were referred to the Council for inquiry.

- 4.10 **Table 3** gives a closer look into the PIC's work in 2012. 11 cases were discussed. Of the 4 cases referred for formal inquiry, 1 case had been heard in 2012 and 3 cases are scheduled for 2013.
- 4.11 The majority of complaints did not reach the inquiry stage but were dismissed either by the PIC Chairman or at the decision of the PIC. They were dismissed either due to their frivolous nature or because they were related to such allegations which could not be taken as unprofessional conduct. It was worth pointing out that some of the complaints touched on civil claims or compensation of professional negligence, rather than unprofessional conduct of the registered dentist which should more appropriately be dealt with through civil proceedings.
- 4.12 At an inquiry, the defendant dentist is normally represented by his defence counsel. The Secretary of the Council, who is normally represented by a Government Counsel of the Department of Justice, is responsible for presenting evidence to substantiate the disciplinary charges, including the calling of witness and independent expert opinion. Hence, it is normally not necessary for the complainant to engage his own legal representative to present the case at the disciplinary hearing.
- 4.13 The Legal Adviser to the Council sits throughout the hearing to assist the Council to deal with any legal issues raised at the disciplinary hearing. It should be stressed that, in deciding on whether the defendant dentist is guilty of the charges laid against him, the Council has to be satisfied with the evidence put before it, and the standard of proof applied in each case has to be commensurate with the gravity of the offence charged.
- 4.14 In the event that the Council is satisfied after an inquiry that a dentist has committed an offence which amounts to unprofessional conduct, any one of the following disciplinary sanctions may be considered –
- (a) removal of the dentist's name from the General Register and/or Specialist Register as appropriate; or
  - (b) removal of the dentist's name from the General Register and/or Specialist Register as appropriate for such period as the Council may think fit; or
  - (c) reprimand; or
  - (d) any other order as the Council thinks fit, but no such order is to be of greater severity than those in (a) to (c) above.

The Council has the power to suspend the operation of an order made under (a), (b) or (c) for a period or periods not exceeding 2 years, in which case the order will not take effect unless during the suspension period the dentist is found guilty of another disciplinary offence or is in breach of a condition of the suspension order.

4.15 **Table 4** shows the number of inquiries conducted by the Council in 2012. 2 inquiry cases were heard and concluded in 2012. In those 2 inquiries, the dentists involved were found guilty. One dentist was reprimanded while another dentist had his name removed from the General Register for 3 months.

4.16 Any dentist who is aggrieved by the order of the Council may appeal to the Court of Appeal of the High Court and the Court of Final Appeal. The Courts may affirm, reverse or vary the order appealed against. **Table 5** shows the number of appeals lodged against the Council's orders in the years 2010 through 2012. 2 appeal cases lodged in 2012 were settled in the same year. 1 appeal that lodged in 2011 was still in progress in the year.

- 5.7 Licensing examination is conducted by the Board of Examiners. The examination is intended for those non-Hong Kong trained dentists who wish to register as dentists in Hong Kong. On passing the examination, the candidate is qualified to apply for registration with the Dental Council. For the purpose of monitoring and maintaining the standard of the examination at an international level, an overseas examiner is appointed to give comments on the multiple choice question papers and to examine some of the candidates in the practical and clinical parts of the examination. The overseas examiner would also provide comments on the content and conduct of the examination for consideration of the Board of Examiners.
- 5.8 The examination is conducted annually by the Board of Examiners. At present, it consists of 3 parts as follows –
- (a) Part I – Multiple-choice question papers, to be taken in either Chinese or English, on professional subjects including Applied Basic Sciences; Medicine and Surgery in relation to Dentistry; Dental Pharmacology and Therapeutics, and Medical Emergencies in relation to Dentistry; Oral Surgery, Oral Medicine and Oral Pathology; Paediatric Dentistry and Orthodontics; Conservative Dentistry; Periodontology, Preventive Dentistry and Dental Public Health; and Prosthodontics.
  - (b) Part II – Practical Test which is designed to test the candidates’ manual dexterity and professional competence in Paediatric Dentistry and Orthodontics; Prosthodontics; Conservative Dentistry; Periodontology and Dental Public Health; and Oral and Maxillofacial Surgery.
  - (c) Part III – Clinical Test which is designed to test the candidates’ ability to apply their professional knowledge to clinical situations particularly in diagnosis, treatment planning and treatment in the restoration of teeth; diagnosis and treatment of periodontal conditions; prosthodontic treatment provision; surgical management of patients; and the diagnosis, treatment planning, and management of infants, children and adolescents.

- 5.9 Details of the results of the examinations since 1997 are shown at **Table 6**.
- 5.10 The Dental Council has set up a Licensing Examination Appeal Mechanism for applicants seeking permission to take the Licensing Examination and for candidates who are aggrieved by the decisions of the Examination Committee and/or the Board of Examiners regarding the examination. ## **Registration and Restoration of Names of Dentists on the Register**

- 6.1 As at 31 December 2012, names of 2,258 dentists were entered in the General Register, either as being residents in Hong Kong or residents outside Hong Kong. **Table 7(A)** shows that there has been a steady increase in the number of registered dentists from 2,179 in 2010, 2,215 in 2011 to 2,258 in 2012.
- 6.2 One of the major tasks for the Dental Council Secretariat is to keep the entries in the General Register accurate and up-to-date while enabling public access to those names currently registered on the list. Hundreds of transactions are carried out on the updating of the General Register on a monthly basis, which include change and/or addition of practising addresses, registration of additional qualifications, deletion from or restoration of the dentists' names to the General Register, transfer to and from the resident and non-resident lists respectively, as well as issuance of Certificate of Good Standing, Duplicate Copy of Certificate of Registration, Certified Copy of Certificate of Registration (which is required when a dentist opens a new clinic for the practice of dentistry) and certificates verifying registration, etc. In addition, with the aim of providing a public service, the Council Secretariat processes an annual average of over 5,000 general enquiries from members of the profession and the public on registration-related matters.
- 6.3 **Table 7(B)** lists in detail the registration figures as well as cases of restoration to the General Register in 2010, 2011 and 2012 respectively.
- 6.4 In addition to the registered dentists with full registration, there were 16 "deemed-to-be registered" dentists in 2012. The "deemed-to-be registered" clause was introduced under section 30(3) of the Dentists Registration Ordinance to enable all persons on full-time teaching employment of the Faculty of Dentistry of HKU to discharge their teaching duties or perform hospital work in the Faculty of Dentistry of the University.
- 6.5 A dentist who has the qualifications, experience and other attributes approved by the Dental Council may apply to the Council for inclusion of his name in the Specialist Register under a specialty. The objective of maintaining a Specialist Register is for the recognition of expertise so that patients may be referred to them for opinion and/or consultation if the need arises.
- 6.6 As at 31 December 2012, a total of 216 registered dentists had their names included in the Specialist Register under the following eight specialties – Orthodontics, Oral and Maxillofacial Surgery, Periodontology, Endodontics, Paediatric Dentistry, Prosthodontics, Family Dentistry and Community Dentistry.

- 
- 6.7 Another key task for the Council Secretariat is the annual exercise of renewal of practising certificates for all registered dentists whose names are on the General Register. A total of 1,984 annual practising certificates for dentists resident in Hong Kong were issued in 2012, as compared with 1,998 practising certificates issued in 2011.
- 6.8 Every registered dentist whose name is on the General Register for dentists resident in Hong Kong is reminded at the end of the year that his practising certificate is due for renewal. A dentist who fails to apply for a new practising certificate on time may be liable for his name to be removed from the General Register and the Specialist Register as necessary.

## **Education and Accreditation Committee (EAC)**

- 7.1 The Education and Accreditation Committee (EAC) was set up under Section 5C of the Dentists Registration Ordinance. The EAC has the following functions –
- (a) to recommend to the Dental Council the specialties under which the names of registered dentists may be included in the Specialist Register;
  - (b) to recommend to the Council the qualifications, experience and other attributes that qualify a registered dentist to have his name included in the Specialist Register under a specialty recommended by the Committee under (a) above;
  - (c) to recommend to the Council the procedures and documentations for an application to include the name of a registered dentist in the Specialist Register;
  - (d) to make recommendations to the Council so that it may decide whether the name of a registered dentist should be included in, or removed from, the Specialist Register;
  - (e) to review and recommend to the Council the standard and structure of undergraduate dental education and training in dentistry required for a person to become a registered dentist; and
  - (f) such other functions as are imposed on it under the Dentists Registration Ordinance.
- 7.2 The EAC considers and recommends to the Council in respect of applications for registration of additional qualifications. A new set of “Guidelines for Inclusion of Qualifications in the List of Registrable/Quotable Additional Qualifications” has been put in place since November 2010. A “List of Registrable/Quotable Additional Qualifications” was also established. Once a qualification has been included in the List, a dentist possessing that qualification may quote such in the dissemination of his service information to the public. If the dentist so chooses, he may also apply for including the said qualification in his entry in the General Register. In addition, there was an application for judicial review filed in 2012 to the Court of First Instance against the Council’s decision to reject an application for registering an additional qualification. The case was still in progress in the year.
- 7.3 As for the accreditation exercise on undergraduate dental education and training in dentistry, a Visit Team comprising two international experts and four local experienced dental practitioners from both the public and private sectors was formed under the Task Force on Accreditation of Standard and Structure of Undergraduate Dental Education and Training of the Council. The Visit Team conducted the accreditation visit to the Faculty of Dentistry of the University of Hong Kong from 19 to 22 November 2012, discussing with the Administration, teaching staff and students and reviewing each and every aspect in the set of Accreditation Requirements with the Faculty. After the visit, the Visit Team had prepared a draft Accreditation Report containing a number of directives and recommendations to the Faculty for rectification and/or improvement. The report will be forwarded to the EAC and the Council for consideration.

- 7.4 The composition of the EAC consists of the following members appointed by the Dental Council –
- (a) 3 members of the Council (one of them shall be the Chairman);
  - (b) a registered dentist nominated by HKU;
  - (c) a registered dentist nominated by HKAM;
  - (d) a registered dentist nominated by DH; and
  - (e) a registered dentist nominated by HKDA.

  - Dr Sun Yee-wah, David (Dental Council) *(up to 30.9.2012)*

## **Continuing Professional Development Accreditation Committee (CAC)**

- 8.1 The existing 3-year cycle of Continuing Professional Development (CPD) Programme for practising dentists commenced on 1 January 2011 and continues to be on a voluntary basis. Same in the first three cycles, the CPD Programme continues to adopt a 'credit point system' with credit points awarded for participation in CPD activities recognized by the Dental Council. A minimum of 45 credit points have to be accumulated over the 3-year cycle ending 31 December 2013.
- 8.2 As in the past, all registered dentists, including those deemed-to-be registered but excluding those on the overseas list, can enroll in the CPD Programme. Fellows of HKAM who can fulfill HKAM's CME/CPD requirements will be regarded as having met the CPD requirements of the Dental Council at the end of the cycle.
- 8.3 A CPD Accreditation Committee (CAC) has been set up to monitor and review the CPD Programme. Its terms of reference are as follows –

## ***Future Developments***

- 10.1 The Dental Council is committed to continue leading the dental profession in its role for greater professionalism. In meeting the community's changing needs and rising public awareness and demands, the Council must stay up-to-date of the community's aspiration as well as the latest developments in technology and demands in dental service.
- 10.2 The Council believes that in an ever-evolving knowledge-based environment, dental practitioners have the obligation to keep themselves updated on current development in knowledge and skills in the various fields of professional practice in order to maintain quality professional service. To encourage practising dentists to maintain and raise further their professional competence, the Council has been running a voluntary continuing education programme for dentists since 2002. The Council will continue encouraging active participation of the registered dentists and to keep the programme under close monitoring.
- 10.3 The Council will continue to regularly look into the scope for improving procedures and processes in the handling of disciplinary cases of registered dentists to further enhance efficiency and transparency. Save for exceptional circumstances, the Council's disciplinary inquiries are normally held in public. This will remain the practice of the Council. Information on the date and venue of an upcoming disciplinary inquiry has also been posted on the Council's website for information to members of the public and interested parties.
- 10.4 The Council's Secretariat will strive to continue enhancing its efficiency in the provision of services to members of the profession as well as the public. In particular, arrangement has been made for information on the Council's website to be updated regularly so as to provide the most up-to-date information on the various issues pertaining to the activities of the Council as well as the practice of dentistry in Hong Kong.
- 10.5 The Council is answerable to the public and has the continuing statutory duty to ensure that all persons are of the required professional standard before they are given the registration to practise in Hong Kong. To this end, the Council is embarking on the accreditation of the degree of Bachelor of Dental Surgery of the University of Hong Kong for the purpose of registration of dentists under the Dentists Registration Ordinance. The exercise is the first of this kind held by the Council. With the completion of the formal accreditation visit in November 2012, the Council will continue to keep close contact with the Faculty of Dentistry of the University of Hong Kong in piloting the exercise.
