# Message from the Chairman

***Dr LEE Kin-man***  
***Chairman, The Dental Council of Hong Kong***

## **Introduction**

Stepping into my fourth year as the Chairman of the Dental Council of Hong Kong (“the Council”), I am pleased to report that the Council had continued to make good progress in the year in executing its statutory functions of registration and regulation of the dental profession.

The pursuit of safeguarding public interests and upholding public confidence in the dental profession is always the top priority of the Council. To meet this end, the Council is committed to regulating the professional conduct and standards of registered dentists, promoting continuous development of the profession and implementing a self-regulating system to ensure dental professionalism. The Council is in a constant and progressive mode in improving organisation governance in order to ensure a robust, open and fair system of dental regulation. The Council also strictly observes and adheres to the working principles of proportionality, accountability, transparency, consistency and timeliness. With all these in mind, I note with pleasure that the Council has made accomplishments in some aspects satisfactorily in 2018.

## **Major Work Done**

One of the core responsibilities of the Council is to maintain professional standards and discipline of registered dental practitioners in Hong Kong. The “Code of Professional Discipline for the Guidance of Dental Practitioners in Hong Kong” (“the Code”) published by the Council has all along provided guidance to all dentists on the proper behaviour to be observed in the profession. In the light of the changing environment, the Council has set up a Taskforce on Review of Code and Professional Discipline to kick start a review of the Code in 2017. Attributed to the thorough study of the Taskforce coupled with an extensive consultation with stakeholders of the profession, I am delighted to announce that the revamping of the Code has been completed successfully. The revised Code, taking into account the latest developments of the profession, will be promulgated shortly for the reference of all dentists.

During the year, the Council has made strenuous effort in upholding the professional standards. Local graduates aside, the Licensing Examination (“LE”) set by the Council ensures the standards of non-locally trained dentists as they are required to pass the LE before becoming eligible to apply for registration and to practise dentistry in Hong Kong. In 2018, the Council conducted two sittings of LE. The number of candidates passing Parts I, II and III of the examination were 28, 22 and 19 respectively with the majority of the candidates being holders of dental qualifications from the Mainland, the Philippines and the United Kingdom. The Council attaches utmost importance to this examination and will introduce enhancement measures at suitable junctures to ensure that it remains comparable with the international standard.

The Council also accords high priority in upkeeping the strong professional competency of dentists. Continuing dental education plays an essential role in allowing dentists to stay up-to-date with the latest knowledge and technology in the circumstances they operate. Echoing the recommendation of the Report of Strategic Review on Healthcare Manpower Planning and Professional Development, the Council is working towards the goal of making the Continuing Professional Development (“CPD”) programme mandatory in the long run. To guarantee adequate supply of CPD courses, the Council announced in the year the details of the appointment of Provisional CPD Programme Providers for implementation in the subsequent CPD cycle.

It is the primary duty of the Council to protect the interests of the public against unprofessional dental service. On the front of the conduct and discipline of registered dentists, the Council received a total of 118 complaints in 2018 with 12 cases proceeded to the Preliminary Investigation Committee or Disciplinary Inquiry stages. To meet the rising public expectation of quality dental service, the Council will stay vigilant to uphold the ethical and professional standards of the dental practitioners.

### **Tasks Ahead**

An important milestone of the Council in the year was the conduct of a review of the Dentists Registration Ordinance (“DRO”), the legal framework for regulation of the profession. The Council has spearheaded the review of DRO to enable effective regulation of the profession and the responsiveness to the evolving environment. A dedicated Taskforce on the Review of DRO has been set up and the wisdom of the profession has been gauged through comprehensive consultation with stakeholders. Through the collective efforts of the profession and the stakeholders, I am glad to report that a proposal on the review of DRO has been formulated. Despite the complexity of the mission, the Council will work closely with the Government for the betterment of the public interests and the sustainable development of the profession.

The achievements of the Council came as a result of the concerted effort of all our Council Members, members of the various committees and taskforces as well as the Council secretariat. I would like to take this opportunity to convey my sincere gratitude and deep appreciation to them for their support rendered in the year to make the work of the Council attainable and successful. In the face of challenges ahead, the Council will continue to stand firm and devoted to safeguarding public interests and striving for excellence in the dental profession with confidence, determination and drive.

# 4 Preliminary Investigation Committee and Disciplinary Proceedings

4.1 The Council's jurisdiction over dentists' professional conduct is laid down in the Dentists Registration Ordinance and the Dentists (Registration and Disciplinary Procedure) Regulations.

4.2 Disciplinary proceedings may be instituted against a registered dentist who –

- (a) has been convicted in Hong Kong or elsewhere of an offence punishable with imprisonment; or
- (b) has been guilty of unprofessional conduct; or
- (c) has obtained registration by fraud or misrepresentation; or
- (d) has procured his name to be included in the Specialist Register by fraud or misrepresentation; or
- (e) was not at the time of his registration qualified to be registered; or
- (f) is practising dentistry in premises or under conditions which are unsuitable for such practice.

4.3 If any applicant for registration –

- (a) has been convicted in Hong Kong or elsewhere of an offence punishable with imprisonment; or
- (b) has been guilty of unprofessional conduct; or
- (c) is the subject of an existing order made under section 17(1)(i) or (ii) of the repealed Dentists Registration Ordinance 1940,

an inquiry may be instituted to determine whether or not the name of the applicant should be admitted by the Council for entry to the General Register.

4.4 The Council has published a Code of Professional Discipline for information to each registered dentist to provide general guidance to him on the proper behaviour to be observed in the profession and what may commonly constitute unprofessional conduct. The Code is not a complete guidebook on professional ethics, nor can it specify all offences which may lead to disciplinary action. Ultimately it is for the Council to decide on the merits of each individual case as to whether the conduct of an individual dental practitioner under complaint or information received constitutes unprofessional conduct.

- 4.5 Complaints or information received against registered dentists touching on matters of unprofessional conduct are normally either lodged with the Council by individuals or referred to the Council by the media, the police or such other organizations as the Consumer Council. In accordance with the statutory procedure, individual complaints may normally be handled under the following procedures –
- (a) initial consideration by the chairman of the Council’s Preliminary Investigation Committee (“PIC”) who must, unless it appears to him that the complaint is frivolous or groundless and should not proceed further, direct that the case be referred to PIC for consideration;
  - (b) examination by PIC of the complaint or information received as well as the explanation of the defendant dentist to determine whether or not there is a prima facie case for a formal inquiry; and
  - (c) inquiry by the Council, which sits in a panel of at least 4 Council Members, to hear the evidence of the complaint and representations from the defendant dentist.
- 4.6 PIC is made up of 3 members. Its composition is as follows –
- (a) 1 member of the Council elected by the Council, who shall be the chairman of the Committee;
  - (b) 2 registered dentists who are not members of the Council and who shall be appointed by the Chairman of the Council –
    - (i) from a panel of not less than 12 such registered dentists nominated by HKDA; or
    - (ii) in the event of HKDA failing to nominate at least 12 such registered dentists, at the discretion of the Chairman.
- 4.7 The membership of PIC in 2018 is as follows –  
Dr Ng Pong-yin, Robert (*Chairman*) (*since 11.1.2018*)  
Dr Wai Tak-shun, Dustin (*up to 30.9.2018*)  
Dr Tsang Hin-kei, Century (*since 12.1.2018*)  
Dr Yiu Bun-ka (*since 31.10.2018*)
- 4.8 In 2018, the Council had processed a total of 118 complaint cases. **Table 1** shows the different nature of the complaints received. Comparative figures for the years 2016 and 2017 are also shown in the table. 70% of the complaints received were related to the disregard of professional responsibilities to patients.
- 4.9 The number of complaints processed in 2018 under the 3-stage process mentioned in paragraph 4.5 above is given in **Table 2**. 77 were dismissed by the chairman of PIC. PIC held 6 meetings in 2018 and considered 12 cases, out of which 6 cases (i.e. 50%) were referred to the Council for inquiry.

- 4.10 **Table 3** gives a closer look into PIC's work in 2018. 12 cases involving 15 dentists were discussed. The 6 cases referred for formal inquiry were scheduled to be heard in 2019.
- 4.11 The majority of complaints did not reach the inquiry stage but were dismissed either by the PIC chairman or at the decision of PIC. They were dismissed either due to their frivolous nature or because they were related to such allegations which could not be taken as unprofessional conduct. It was worth pointing out that some of the complaints touched on civil claims or compensation of professional negligence, rather than unprofessional conduct of the registered dentist which should more appropriately be dealt with through civil proceedings.
- 4.12 At an inquiry, the defendant dentist is normally represented by his defence counsel. The Secretary of the Council, who is normally represented by a Government Counsel of the Department of Justice, is responsible for presenting evidence to substantiate the disciplinary charges, including the calling of witness and independent expert opinion. Hence, it is normally not necessary for the complainant to engage his own legal representative to present the case at the disciplinary hearing.
- 4.13 The Legal Adviser to the Council sits throughout the hearing to assist the Council to deal with any legal issues raised at the disciplinary hearing. It should be stressed that, in deciding on whether the defendant dentist is guilty of the charges laid against him, the Council has to be satisfied with the evidence put before it, and the standard of proof applied in each case has to be commensurate with the gravity of the offence charged.
- 4.14 In the event that the Council is satisfied after an inquiry that a dentist has committed an offence which amounts to unprofessional conduct, any one of the following disciplinary sanctions may be considered –
- (a) removal of the dentist's name from the General Register and/or Specialist Register as appropriate; or
  - (b) removal of the dentist's name from the General Register and/or Specialist Register as appropriate for such period as the Council may think fit; or
  - (c) reprimand; or
  - (d) any other order as the Council thinks fit, but no such order is to be of greater severity than those in (a) to (c) above.

The Council has the power to suspend the operation of an order made under (a), (b) or (c) for a period or periods not exceeding 2 years, in which case the order will not take effect unless during the suspension period the dentist is found guilty of another disciplinary offence or is in breach of a condition of the suspension order.

- 
- 4.15 **Table 4** shows the number of inquiries conducted by the Council in 2018. 5 inquiry cases were heard. Among the 5 cases, one application for restoration was not allowed. The remaining 4 cases involved 4 dentists and all of them were found guilty.
- 4.16 Any dentist who is aggrieved by the order of the Council may appeal to the Court of Appeal of the High Court and the Court of Final Appeal. The Courts may affirm, reverse or vary the order appealed against. **Table 5** shows the number of appeals lodged against the Council's orders in the years 2016 through 2018. 1 appeal case was lodged by the defendant dentist in 2018. Upon the request by the defendant dentist for dismissal of appeal, the appeal was subsequently ordered to be dismissed by the Court of Appeal.

The examination is intended for those non-Hong Kong trained dentists who wish to register as dentists in Hong Kong. On passing the examination, the candidate is qualified to apply for registration with the Council. For the purpose of monitoring and maintaining the standard of the examination at an international level, an overseas examiner is appointed to give comments on the multiple choice question papers and to examine some of the candidates in the practical and clinical parts of the examination. In 2017, a new Expert Panel on Setting of New Questions was set up to continue reviewing and replenishing the question bank and its work continued in 2018.

# 6 Registration and Restoration of Names of Dentists on the Register

- 6.1 As at 31 December 2018, names of 2,553 dentists were entered in the General Register, either as being residents in Hong Kong or residents outside Hong Kong. **Table 7(A)** shows that there has been a steady increase in the number of registered dentists from 2,441 in 2016, 2,500 in 2017 to 2,553 in 2018.
- 6.2 One of the major tasks for the Council Secretariat is to keep the entries in the General Register accurate and up-to-date while enabling public access to those names currently registered on the list. Hundreds of transactions are carried out on the updating of the General Register on a monthly basis, which include change and/or addition of practising addresses, registration of additional qualifications, deletion from or restoration of the dentists' names to the General Register, transfer to and from the resident and non-resident lists respectively, as well as issuance of Certificate of Good Standing, Duplicate Copy of Certificate of Registration, Certified Copy of Certificate of Registration (which is required when a dentist opens a new clinic for the practice of dentistry) and certificates verifying registration, etc. In addition, with the aim of providing a public service, the Council Secretariat processes an annual average of over 5,000 general enquiries from members of the profession and the public on registration-related matters.
- 6.3 **Table 7(B)** lists in detail the registration figures as well as cases of restoration to the General Register in 2016, 2017 and 2018 respectively.
- 6.4 In addition to the registered dentists with full registration, there were 23 "deemed-to-be registered" dentists in 2018. The "deemed-to-be registered" clause was introduced under section 30(3) of the Dentists Registration Ordinance to enable all persons on full-time teaching employment of the Faculty of Dentistry of HKU to discharge their teaching duties or perform hospital work in the Faculty of Dentistry of HKU.
- 6.5 A dentist who has the qualifications, experience and other attributes approved by the Council may apply to the Council for inclusion of his name in the Specialist Register under a specialty. The objective of maintaining a Specialist Register is for the recognition of expertise so that patients may be referred to them for opinion and/or consultation if the need arises.
- 6.6 As at 31 December 2018, a total of 289 registered dentists had their names included in the Specialist Register under the following eight specialties – Orthodontics, Oral and Maxillofacial Surgery, Periodontology, Endodontics, Paediatric Dentistry, Prosthodontics, Family Dentistry and Community Dentistry.
- 6.7 Another key task for the Council Secretariat is the annual exercise of renewal of practising certificates for all registered dentists whose names are on the General Register. In 2018, a total of 2,338 letters were issued to invite those registered dentists to renew their annual practising certificates for 2019.
- 6.8 Every registered dentist whose name is on the General Register for dentists resident in Hong Kong is reminded at the end of the year that his practising certificate is due for renewal. A dentist who fails to renew his/her practising certificate on time may be liable for his name to be removed from the General Register and the Specialist Register.

# 7 Education and Accreditation Committee

- 7.1 The Education and Accreditation Committee (“EAC”) was set up under Section 5C of the Dentists Registration Ordinance. EAC has the following functions –

  - (c) to recommend to the Council the procedures and documentations for an application to include the name of a registered dentist in the Specialist Register;
  - (d) to make recommendations to the Council so that it may decide whether the name of a registered dentist should be included in, or removed from, the Specialist Register;
  - (e) to review and recommend to the Council the standard and structure of undergraduate dental education and training in dentistry required for a person to become a registered dentist; and
  - (f) such other functions as are imposed on it under the Dentists Registration Ordinance.
- 7.2 EAC considers and recommends to the Council in respect of applications for registration of additional qualifications. A new set of “Guidelines for Inclusion of Qualifications in the List of Registrable/Quotable Additional Qualifications” has been put in place since November 2010. A “List of Registrable/Quotable Additional Qualifications” was also established. Once a qualification has been included in the List, a dentist possessing that qualification may quote such in the dissemination of his service information to the public. If the dentist so chooses, he may also apply for including the said qualification in his entry in the General Register.
- 7.3 As for the accreditation exercise on undergraduate dental education and training in dentistry, EAC has maintained a close working relationship with the Faculty of Dentistry of HKU to ensure proper implementation of the recommendations.
- 7.4 The composition of EAC consists of the following members appointed by the Council –

# 8 Continuing Professional Development Committee

- 8.1 A Continuing Professional Development Committee (“CPDC”) has been set up to monitor and review the Continuing Professional Development (“CPD”) Programme. The terms of reference of CPDC are as follows –
- (a) to monitor the process of accreditation of CPD activities;
  - (b) to recommend CPD Programme Providers, CPD Programme Accreditors and CPD Programme Administrators for approval by the Council;
  - (c) to recommend award of the CPD certificate for approval by the Council; and
  - (d) to conduct review of the CPD Programme for practising dentists.
- 8.2 CPDC comprises the following representatives -
- (a) 3 representatives from the Council (one of them shall be the Chairman);
  - (b) a representative from CDSHK;
  - (c) a representative from HKDA; and
  - (d) a representative from the Faculty of Dentistry of HKU.
- 8.3 The membership of the CPDC in 2018 is as follows -
- Dr Lee Kin-man (the Council) (Chairman) (*since 11.1.2018*)  
Professor Cheung Shun-pan, Gary (the Council)  
Dr Lau Kin-kwan, Kenny (the Council)  
Dr Ho Wai-mei (CDSHK)  
Dr Leung Fun-shing, Vincent (HKDA) (*up to 29.5.2018*)  
Dr Liu Wai-ming, Haston (HKDA) (*since 14.7.2018*)  
Dr Leung Yiu-yan (HKU)
- 8.4 The CPD Programme has been running since 2002. In view of the fact that dentists in many countries are required to undergo “mandatory continuous learning” in order to maintain their professional status, the Council considers that it is necessary to explore the feasibility of mandatory CPD Programme for registered dentists in Hong Kong. In this regard, the Council has been reviewing the CPD Programme in order to formulate a strategic plan for long-term development. 1-year cycle of CPD Programme for practising dentists on voluntary basis was adopted for the years 2014 to 2016 as an interim measure. The Council endorsed to resume the CPD cycle, which will remain voluntary, to 3 years starting from 2017 in order to tie in with the CME/CPD cycle of CDSHK. A minimum of 45 credit points have to be accumulated over the 3-year cycle ending 31 December 2019. Out of the 45 CPD points, a registered dentist must obtain at least 8 CPD points (which was subsequently moderated as 5 points for the CPD cycle 2017-2019) by attending activities from the newly introduced core CPD areas.

8.5 As in the past, all registered dentists, including those deemed-to-be registered but excluding those on the overseas list, can enroll in the CPD Programme.

8.6 On the recommendation of the CPDC, the following CPD Programme Accreditors, CPD Programme Administrators and CPD Programme Providers have been appointed by the Council for the CPD cycle 2017-2019 -

# 10 Future Developments

- 10.1 The Council is committed to continue leading the dental profession in its role for greater professionalism. In meeting the community's changing needs and rising public expectations on the profession, the Council must stay up-to-date of the community's aspiration as well as the latest developments in technology and demands in dental service.
- 10.2 The Council believes that with the rapid clinical and scientific development, dental practitioners have the obligation to keep themselves updated on the latest development in knowledge and skills in the various fields of professional practice in order to maintain quality professional service. The Council will continue to review and closely monitor the CPD programme, and to encourage active participation of the registered dentists in the CPD Programme so as to maintain and raise further their professional competence.
- 10.3 The Council will continue to regularly look into the scope for improving procedures and processes in the handling of disciplinary cases of registered dentists to further enhance efficiency and transparency. Save for exceptional circumstances, the Council's disciplinary inquiries are normally held in public. This will remain the practice of the Council. Information on the date and venue of an upcoming disciplinary inquiry has also been posted on the Council's website for information to members of the public and interested parties.
- 10.4 The Council's Secretariat will continue to enhance its efficiency in the provision of services to members of the profession as well as the public. In particular, arrangement has been made to update regularly the information posted on the Council's website such that the most up-to-date information on various issues pertaining to the activities of the Council as well as the practice of dentistry in Hong Kong can be made available to the public.
- 10.5 The Council is answerable to the public and has the continuing statutory duty to ensure that all persons are of the required professional standard before they are given the registration to practise in Hong Kong. To this end, the Council will conduct accreditation exercise on the degree of Bachelor of Dental Surgery of HKU at 5-year cycle intervals. The first accreditation exercise was completed in 2013 and the Council has granted accredited status to the University of Hong Kong. The Council successfully conducted the second accreditation exercise in 2017 in collaboration with the Faculty of Dentistry of HKU. An Accreditation Report presenting the findings of the accreditation exercise with recommendations/suggestions has been passed to HKU.
- 10.6 To keep pace with the changing environment, the Council has kick-started the review on the Code of Professional Discipline for the Guidance of Dental Practitioners in Hong Kong ("the Code") with the assistance and support of the Taskforce on Review of Code of Professional Discipline. The review has been completed and the revised Code will be issued.
