# Verification of Registration Status of Dentists and Dental Hygienists

To enable members of the public to verify whether a dentist or dental hygienist is properly registered, a QR code has been imprinted on the annual practising certificates and retention certificates issued for the 2027 practising year and onwards. Scanning the QR code will direct users to the registration record of the dentists or dental hygienists concerned, showing the latest status of both their registration and practising or retention certificate. Specimens of the certificates and the verification information are shown below for reference.

# Specimens of Annual Practising Certificate and Retention Certificate
